

CULTIVATING A GLOBAL ECONOMY

International Companies are Finding Success Right Here in New Mexico

New Mexico's International Economy

New Mexico continues to provide an ideal U.S. location for incoming foreign companies. The unique set of advantages the state offers has resulted in attracting some of the most recognized companies from around the world. **In fact, 20 percent of all FDI jobs in the state are in the manufacturing sector.**

New Mexico provides a high-quality workforce with expertise across a wide range of industries. The state also has a pipeline of new talent coming from our universities.

New Mexico offers aggressive incentives to encourage job creation and investment. These incentives are offered to businesses of all sizes.

State and municipal governments are business-friendly and accessible. New Mexico has also instituted a "soft landing" program throughout many of its communities to assist relocating or expanding foreign companies.

**New Mexico:
an Ideal U.S.
Location**

Land, housing, and cost of doing business are among the lowest in the country.

New Mexico is home to world-class research institutions and universities, including 2 Department of Energy National Labs (Sandia and Los Alamos).

Contact Us

The New Mexico Economic Development Department (NMEDD) and the New Mexico Partnership are partners in economic development, working together to foster New Mexico's growth. The New Mexico Partnership acts as the state's designated single-point-of-contact to help businesses locate in New Mexico. We offer a coordinated approach and offer expertise on everything from talent to critical infrastructure to R&D resources and all the other factors that go into a business location decision.
